## Experience

---

**Front-end Developer**, Codistan Ventures – I-11/3, Islamabad Nov 2023 – December 2024

- Made responsive user-interfaces for many projects from figma for all devices(PC, tablet, phones)
- Integrated Rest API's and also GraphQL API's in various projects
- I worked on projects like Ranchers Cafe web-app, Predictive Analysis, Campsite Admin-panel, Jand Jip, ZeemDev, Video-Overlay

**Junior front-end Reactjs developer** , LancerHut – Police foundation, Islamabad July 2022 – July 2023

- There I start learning on ReactJS by working on real time projects under supervision of my seniors
- Learn how to make user-interfaces from figma and made UI's for many projects
- learn how to responsiveness, API integration and state management-tools like redux toolkit.

**Reactjs development Internship** , Bikter Tech – Gulberg Green, Islamabad April 2022 – June 2022

## Education

---

**Capital University of Science and Technology (CUST)**, BS in Software Engineer Sept 2017 – May 2022

- **Coursework:** Software Architecture, Web Application Development, Software Project Management
- **FYP:** Workshop Automation System using PHP

## Industrial Projects

---

**Ranchers Cafe Web App** <https://rancherscafe.com/>

- I added some functionalities, changed some stylings and resolved few issues. The front-end was on Nextjs and Typescript and GrapghQl API's are used in it.
- Tools Used: Nextjs, Redux, Typescript, Tailwind, Material-UI, GraphQL API's

### Predictive Analysis

- This project was on TypeScript and NextJS and also GraphQL is used in the backend, and also integrated GrapghQL API's. MaterialUI and modular CSS is used for the styling things.
- Tools Used: Typescript, Nextjs, Material-UI, GraphQL

### Campsite Admin-panel Front End Project

- This project was on ReactJS and I have used Barrey Template in this project. I have fully customized it accordingly and also used MaterialUI for styling, integrated Rest API's, and useContext is used.
- Tools Used: Javascript, Reactjs, Material-UI, Rest API's

### Jand Jip

- This project was on reactJS. Styled-component is used in this project for the styling. I have given this already existing project which i have to made it responsive and resolve the issues in Stylings and resposniveness.
- Tools Used: Javascript, Reactjs, styled-components, Rest API's

## Skills and Technologies

---
