## Software Engineer/Front End Developer

Passionate Frontend Developer with hands-on experience in building sleek, responsive, and high-performance user interfaces. Proficient in React.js, JavaScript, and UI/UX principles, with a strong ability to integrate APIs and optimize web applications for seamless user experiences.

## EXPERIENCE

**Tech Solutions Pro • Islamabad, Pakistan • 03/2025 — Present**
Front-End Developer

**Codistan Ventures • Islamabad, Pakistan • 11/2023 — 02/2025**
Front-end Developer

- Developed **responsive** and **mobile-friendly** UIs for multiple projects using **React.js, Next.js, and Material-UI.**
- Integrated **RESTful APIs** and **GraphQL APIs** to enhance functionality and ensure seamless data flow.
- Optimized performance, reducing **page load times by 30%** through efficient state management and lazy loading.
- Led frontend development for projects such as **Ranchers Cafe Web App, Predictive Analysis, Campsite Admin Panel, and ZeemDev.**

**LancerHut – Police foundation • Islamabad, Pakistan • 07/2022 — 07/2023**
Junior front-end Reactjs developer

- Designed and implemented **pixel-perfect UI components** based on **Figma designs.**
- Applied **Redux Toolkit** for state management, ensuring scalability and maintainability.
- Enhanced UI responsiveness, improving user experience across desktop, tablet, and mobile devices.
- Collaborated with backend developers to ensure smooth API integration.

**Bikter Tech – Gulberg Green • Islamabad, Pakistan • 04/2022 — 06/2022**
Reactjs development Internship

- Gained hands-on experience with **React.js** by working on real-time projects.
- Assisted in implementing UI/UX enhancements and fixing styling inconsistencies.
- Learned API integration techniques and responsive design principles.

## EDUCATION

**BS in Software Engineering**
Capital University of Science and Technology (CUST) • 09/2017 — 05/2022

- **Relevant Coursework:** Web Application Development, Software Architecture, Software Project Management
- **Final Year Project:** Developed a **Workshop Automation System** using **PHP** to streamline workshop management.

## PROJECTS

### Ranchers Cafe Web App

- Implemented new functionalities and resolved UI/UX issues using **Next.js, TypeScript, GraphQL APIs, and Material-UI.**
- Tools Used: Nextjs, Redux, Typescript, Tailwind, Material-UI, GraphQL API's

### Predictive Analysis

- Developed dynamic dashboards using **Next.js, TypeScript, and Material-UI**, optimizing data visualization performance.
- Tools Used: Typescript, Nextjs, Material-UI, GraphQL

### Campsite Admin-panel Front End Project

- Customized the **Barrey Template** using **React.js, Material-UI, and REST APIs**, ensuring seamless admin panel functionality.
- Tools Used: Javascript, Reactjs, Material-UI, Rest API's

### Jand Jip

- Improved UI responsiveness and resolved styling issues using **React.js and Styled-Components.**
- Tools Used: Javascript, Reactjs, styled-components, Rest API's

## SKILLS & INTERESTS

**Programming Languages**   C++, JavaScript (ES6+), TypeScript, HTML, CSS, SCSS

**Front-End Technologies**   React.js, Next.js, UI Libraries: Redux-toolkit, Material-UI (MUI), Shadcn, Bootstrap, Tailwind CSS, Styled-Components

**Back-End Technologies**   REST APIs, Node.js, Express.js, MongoDB, MySQL, GraphQL

**Project Management Tools**   Jira, ClickUp, GitHub, GitLab, Git

**Soft Skills**   Leadership, Project Management, Problem-Solving, Team Collaboration
