Career Objective

Creative and detail-driven Frontend Developer with 2+ years of experience crafting responsive, high-performance web applications using React.js, JavaScript (ES6+), HTML5, and CSS3. Proven expertise in developing pixel-perfect UI aligned with modern UX principles, integrating RESTful APIs, and ensuring seamless performance across all devices and browsers. Adept at collaborating in agile teams to deliver scalable solutions that meet both design and business goals. Passionate about modern web technologies and continuously exploring advancements in Web3 and decentralized apps.

Skills

JavaScript TypeScript React.js Next.js Redux Toolkit Tailwind CSS

Material-UI Shadcn Reactstrap Rest API's GraphQL API's API Integration

Node.js Express.js Mongo_db HTML CSS & SCSS Bootstrap

Education

Institution	Degree	Grade	Year
Capital University of Science and Technology (CUST)	BS in Software Engineer		2020

Experience

POSHMAAL TECHNOLOGIES   **2025-09-03 - Present**
MERN Stack developer

- Bug fixings and debugging.
- Make pixel perfect UI's from figma.
- Integrate API's

TECH SOLUTIONS PRO   **2025-05-01 - 2025-09-03**
Frontend Developer

- Worked on a project named as Maelano which is eCommerce platform same as Amazon.com.

- Multiple portals like Seller, Wholeseller, Buyer and admin.
- Integrated Rest API's on their portals. made the UI's for different pages.

CODISTAN VENTURES   2023-11-02 - 2025-05-01
Frontend Developer

- Developed high-performance, mobile-friendly UIs using React.js, Next.js, and Material-UI.
- Integrated RESTful APIs and GraphQL APIs for seamless data flow and enhanced functionality.
- Optimized performance, reducing page load time by 30% using state management, lazy loading, and code splitting.
- Led frontend development for multiple projects, including Ranchers Cafe Web App, Predictive Analysis, Campsite Admin Panel, and ZeemDev.
- Implemented responsive design principles to improve UI/UX across web and mobile platforms.

LANCERHUT   2022-07-22 - 2023-07-23
junior frontend Reactjs developer

- Developed pixel-perfect UI components from Figma designs using React.js.
- Implemented state management using Redux Toolkit to ensure scalability and maintainability.
- Enhanced UI responsiveness, improving the user experience across desktop, tablet, and mobile devices.
- Collaborated with backend developers to integrate APIs and optimize frontend-backend communication.

BIKTER TECH   2022-04-22 - 2023-06-30
Reactjs development Internship

- Worked on real-time projects to gain hands-on experience with React.js.
- Assisted in UI/UX enhancements and resolved styling inconsistencies.
- Learned API integration techniques and best practices for responsive design.

Mealano Ecommerce Application

Tools Used: Reactjs, Redux-toolkit, React-Strap, Rest API's.

- I amworking on multiple portals like Admin-portal,Seller-portal, WholeSeller-portal but there are other portals like Affiliate-Portal, User-Portal in Maelano.
- live site link: https://maelano.com/landingpage

Ranchers Cafe Web App

Tools Used: Nextjs, Redux, Typescript, Tailwind, Material-UI, GraphQL API's.

- Enhanced UI and functionality of Ranchers Cafe web app using Next.js and GraphQL, improving user interaction and visual consistency.
- live site link: https://rancherscafe.com/

Jand Jip

Tools Used: Javascript, Reactjs, styled-components, Rest API's

- This project was on reactJS. Styled-component is used in this project for the styling. I have given this already existing project which i have to made it responsive and resolve the issues in Stylings and resposniveness.

- live site link: https://jandjip.com/

Predictive Analysis

Tools Used: Typescript, Nextjs, Material-UI, GraphQL

- This project was on TypeScript and NextJS and also GraphQL is used in the backend, and also integrated GrapghQL API's. MaterialUI and modular CSS is used for the styling things.

Campsite Admin-panel Front End Project

Tools Used: Javascript, Reactjs, Material-UI, Rest API's

- This project was on ReactJS and I have used Barrey Template in this project. I have fully customized it accordingly and also used MaterialUI for styling, integrated Rest API's, and useContext is used.

ZeemDev Application (property related)

Tools Used: Nextjs, Redux, Typescript, Tailwind, Material-UI, GraphQL API's.

- I worked on super-Admin role in this project, made dashboard UI and Integrated APIs to connect with backend.

Accomplishments

- React.js Certification from Coursera in 2022
- Frontend Development Certification from Coursera in 2022
