SAMEE UR REHMAN

Front-End Developer | React.js, Next.js & TypeScript

Islamabad, Pakistan | +92 306 5145627 | samee6812@gmail.com | linkedin.com/in/samee6812 | github.com/sameerehman001

SUMMARY

Front-End Developer with 4+ years of experience building production React.js, Next.js, and TypeScript applications. Specialized in role-based dashboards and API-driven interfaces for transport, logistics, healthcare, and e-commerce platforms. Comfortable across the stack (Node.js, Express.js, MongoDB) and experienced in Agile, cross-functional teams.

CORE SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3
Frontend: React.js, Next.js, Redux Toolkit, Redux, Zustand, Tailwind CSS, Material UI, ShadCN UI, Responsive Design, Component-Based Architecture
APIs & Backend: REST APIs, GraphQL, WebSockets, Node.js, Express.js, MongoDB, PostgreSQL
Tools: Git, GitHub, GitLab, Jira, ClickUp, Postman, VS Code
AI-Assisted Development: Claude, ChatGPT, Codex

PROFESSIONAL EXPERIENCE

Front-End Developer — Golden Hawk Technologies — Jan 2026 – Present
Islamabad, Pakistan

- Architect and build scalable, responsive role-based dashboards for BusRoute and EaseFix using React.js, Next.js, TypeScript, Material UI, and Redux Toolkit, supporting multiple user roles and permission levels.
- Integrate REST APIs to ship new business features and resolve production issues quickly.
- Improve application performance by optimizing rendering, state management, and data fetching.
- Work with designers, backend engineers, and product managers in an Agile environment to deliver maintainable, well-documented code.

MERN Stack Developer — Poshmaals Technologies — Jan 2025 – Jan 2026
Islamabad, Pakistan

- Built full-stack healthcare and enterprise applications with MongoDB, Express.js, React.js, and Node.js.
- Implemented authentication, role-based access control, and REST API integrations to secure business workflows.
- Created reusable React.js components and worked with backend services to support scalable, database-driven applications.

Front-End Developer — Codistan Ventures — Nov 2023 – Jan 2025
Islamabad, Pakistan

- Delivered production features across five projects (Ranchers Café, Campsite, Video Overlay Admin Panel, J&J, and a Predictive Analysis platform) using React.js, Next.js, TypeScript, Tailwind CSS, and Material UI.
- Integrated GraphQL and REST APIs and built reusable UI components with efficient state management.
- Optimized the responsive user experience of a live food-ordering platform serving real customers.

Junior React.js Developer — LancerHut — Jul 2022 – Oct 2023
Islamabad, Pakistan

- Developed responsive user interfaces with React.js, JavaScript, HTML5, and CSS3, and integrated REST APIs.
- Built reusable frontend components and resolved UI defects under senior developer mentorship.
- Participated in Git-based workflows, code reviews, and Agile sprints.

SELECTED PROJECTS

BusRoute — Transport Management System | *https://busroute.co/*

- Built a transport management platform with Next.js, TypeScript, Material UI, Redux Toolkit, and REST APIs, including role-based dashboards for multiple user types.

Maelano — E-Commerce Platform | *https://maelano.com/landingpage*

- Developed a React.js e-commerce application with Tailwind CSS, Redux Toolkit, and REST APIs on a microservices architecture.
- Built dashboards for sellers, affiliates, wholesalers, retailers, employees, and warehouse teams.

Jand Jip — Logistics Web Application | *https://jandjip.com/*

- Built logistics dashboards with React.js, Tailwind CSS, and Redux Toolkit, covering authentication, shipment management, and role-based workflows for carriers, brokers, and administrators.

Ranchers Café — Food Ordering Platform | *https://rancherscafe.com/*

- Enhanced a live ordering platform with Next.js, TypeScript, Tailwind CSS, Material UI, Redux Toolkit, and GraphQL, delivering production features and a faster responsive experience.

EDUCATION

Bachelor of Software Engineering — Capital University of Science and Technology (CUST), Islamabad, Pakistan
2017 – 2022

Relevant Coursework: Data Structures & Algorithms, Database Management Systems, Object-Oriented Programming, Web Development, Software Engineering, Operating Systems, Computer Networks
